D4Science Infrastructure - Task #10287

Schedule downtime for GN DB

Nov 09, 2017 07:01 PM - Fabio Sinibaldi

Status:	Closed		**Start date:**	Nov 09, 2017
Priority:	Urgent		**Due date:**	Nov 22, 2017
Assignee:	_InfraScience Systems Engineer		**% Done:**	100%
Category:	Data Management		**Estimated time:**	0.00 hour
Target version:	SDI-nodes management			
Infrastructure:	Production			

Description

The GN spatialIndex hosted on geonetwork_rel_4.1@geoserver-db.d4science.org seems to be in a incoherent state according to GN logs in geonetwork.d4science.org.
A restart of geoserver-db.d4science.org seems required in order to bring the situation back to normal.

This task is expected to take few minutes.
