@roberto.cirillo@isti.cnr.it @g.panichi@isti.cnr.it @gianpaolo.coro@isti.cnr.it can I have an answer please?
Can we reconfigure it as a production one or is it still used to serve the TextCrowd VRE?

#4 - Nov 28, 2017 10:24 AM - Roberto Cirillo

As explained in the description, TextCrowd is served by "dataminer-prototypes" cluster so this instance should be added to dataminer-garr cluster.

#5 - Nov 28, 2017 11:50 AM - Andrea Dell'Amico

I read the description, but @gianpaolo.coro@isti.cnr.it told me repeatedly that he's sure it's still needed for TextCrowd. So I asked for a confirmation.

I talked with Roberto. The dataminer will be moved into the production pool.
