

D4Science Infrastructure - Task #10377

Disable SSL from the pgpool-clustered postgresql instances

Nov 20, 2017 02:58 PM - Andrea Dell'Amico

| | | | |
|------------------------|---|------------------------|--------------|
| Status: | Closed | Start date: | Nov 20, 2017 |
| Priority: | High | Due date: | Nov 30, 2017 |
| Assignee: | Andrea Dell'Amico | % Done: | 100% |
| Category: | System Application | Estimated time: | 0.00 hour |
| Target version: | No Sprint | | |
| Infrastructure: | Development, Pre-Production, Production | | |

Description

It seems that every problem we've had so far involves the certificate renewals (postgres wants a restart, a reload is not sufficient, after a certificate renewal).
