I didn't notice that the plugin has to run on each node where RStudio runs not on quota-plugin.d4science.org as I indicated. So this installation is useless. @andrea.dellamico@isti.cnr.it I'm very sorry for this.

@roberto.cirillo@isti.cnr.it do you know if it was running on production on RStudio nodes? Can you please take care of this activity? I opened the new ticket [#10440](#)
