we should not remove SAI from the VREs that are using it. Rather, we should assign the proper resources to these VREs.

So, please change this ticket to assign prototype cluster and environment to Rakip.

#2 - Dec 01, 2017 03:21 PM - Giancarlo Panichi

It is also good to assign the proto cluster, but then we need to add all the DMPoolManager and SAI resources on the IS.
Please @massimiliano.assante@isti.cnr.it , can you give us the list of VRE where is SAI portlet?
So @roberto.cirillo@isti.cnr.it can add the right resources.
