Description

I was looking for old accounting_service bucket and I found few records (74) from the following hosts:

- ckan-grsf-admin.d4science.org:80
- node24.p.d4science.research-infrastructures.eu:8002
- node66.p.d4science.research-infrastructures.eu:8000
- ckan-ecoevo.d4science.org:80
- node1.p.d4science.research-infrastructures.eu:8000
- node79.d4science.org:9000
- ip-90-147-167-3.ct1.garrservices.it:80

You can find the last time the bucket got a record from each node:

```
[
  {
    "$1": "2017-10-30T10:45:16.435+01:00",
    "host": "node1.p.d4science.research-infrastructures.eu:8000",
    "serviceName": "GHNManager"
  },

    "host": "ip-90-147-167-3.ct1.garrservices.it:80",
    "serviceName": "RConnector"
  }
]
```

If you already restarted the node after the indicated date you can skip restarting it, otherwise please restart it.

History

#1 - Dec 12, 2017 10:55 AM - Luca Frosini

@andrea.dellamico@isti.cnr.it I'm not able to select the assignee and by default it has been assigned to Infrascience Sytems Engineer. I would like to assign it to @roberto.cirillo@isti.cnr.it

#2 - Dec 12, 2017 10:58 AM - Andrea Dell'Amico

- *Description updated*
- *Assignee changed from _InfraScience Systems Engineer to Roberto Cirillo*

I'm reassigning the task to @roberto.cirillo@isti.cnr.it because most of them are gCore nodes.

#3 - Dec 12, 2017 12:12 PM - Roberto Cirillo

- *Status changed from New to In Progress*

#4 - Dec 12, 2017 12:32 PM - Roberto Cirillo

- *Status changed from In Progress to Closed*
- *% Done changed from 0 to 100*

all nodes have been restarted
