

D4Science Infrastructure - Task #10678

DMPoolManager - conflicts between the dataminer-proto-ghost and svn

Dec 13, 2017 12:16 PM - Giancarlo Panichi

Status:	Closed	Start date:	Dec 13, 2017
Priority:	High	Due date:	Dec 14, 2017
Assignee:	Ciro Formisano	% Done:	100%
Category:	Application	Estimated time:	0.00 hour
Target version:	DMPoolManager - bugs fix		
Infrastructure:	Production		
Description Our users are no longer able to update their algorithms because the dataminer-proto-ghost does not commit correctly on svn. This could be, because the DMPoolManager does not "Update to Head" before committing. For example the file CREATEAFFIXRULES_interface.jar in the folder: ~/wps_algorithms/algorithms/proto/software It is in conflict state. This conflict is not reported as an error, which it would be better to do.			

History

#2 - Dec 13, 2017 02:25 PM - Giancarlo Panichi

To unlock this situation and to allow users to work, I updated the dataminer-proto-ghost. So now, it works. It would be better if there was an error notification in case of conflicts with svn.

#3 - Dec 13, 2017 02:56 PM - Pasquale Pagano

- Priority changed from Normal to High

#4 - Dec 14, 2017 11:21 AM - Giancarlo Panichi

Today, I noticed that DMPoolManager does not add the algorithms on svn when they are new:

```
svn status | grep ?  
?      MPA_INTERSECT_V4.jar  
?      MPA_INTERSECT_V4_interface.jar  
?      PLANT_HEIGHT_MODEL.jar  
?      PLANT_HEIGHT_MODEL_interface.jar
```

Please @ciro.formisano@eng.it, can you check?
Thanks

#5 - Dec 14, 2017 01:25 PM - Giancarlo Panichi

- Status changed from New to Closed

- % Done changed from 0 to 100

Thanks to @ciro.formisano@eng.it , we have solved the question this morning, now everything works. in the future some notifications will be added to DMPoolManager for report conflicts. So we can close this ticket.

#6 - Dec 15, 2017 12:36 PM - Giancarlo Panichi

- Due date set to Dec 14, 2017
