D4Science Infrastructure - Task #10786

WOFOST - this algorithm must be in the scope of AgroClimaticModelling

Dec 21, 2017 05:40 PM - Giancarlo Panichi

Status:	Closed		**Start date:**	Dec 21, 2017
Priority:	Normal		**Due date:**	
Assignee:	Roberto Cirillo		**% Done:**	100%
Category:	Application		**Estimated time:**	0.00 hour
Target version:	UnSprintable			
Infrastructure:	Production			

Description

Currently there are three resources on the IS for WOFOST algorithm.

Two resources declare only:

- /d4science.research-infrastructures.eu/D4Research/AgroClimaticModelling

The third resource:

- /d4science.research-infrastructures.eu/D4Research/AgroClimaticModelling
- /d4science.research-infrastructures.eu/D4Research/FoodSecurity
- /d4science.research-infrastructures.eu/D4Research/FoodborneOutbreak

We must have a single resource with only AgroClimaticModelling scope.

History

#1 - Dec 21, 2017 05:50 PM - Roberto Cirillo

- *Status changed from New to In Progress*

#2 - Dec 21, 2017 05:53 PM - Roberto Cirillo

- *Status changed from In Progress to Closed*

- *% Done changed from 0 to 100*
