

D4Science Infrastructure - Task #10883

R install.packages leaves lock files around if crashing while an installation is running

Jan 11, 2018 05:39 PM - Andrea Dell'Amico

<b>Status:</b>	Closed	<b>Start date:</b>	Jan 11, 2018
<b>Priority:</b>	Urgent	<b>Due date:</b>	
<b>Assignee:</b>	Andrea Dell'Amico	<b>% Done:</b>	100%
<b>Category:</b>	System Application	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	DataMiner - Pre Installed Software support		
<b>Infrastructure:</b>	Development, Pre-Production, Production		
<b>Description</b>			
And it is not able to distinguish between a legit lock to an obsolete one, so a manual removal is the only way to fix the problem. When a lock for a package exists, the installation of that package aborts.			

History

#2 - Jan 11, 2018 05:40 PM - Andrea Dell'Amico

- Status changed from New to In Progress

Just changed the upgrade\_r\_packages script to remove all the lock files that it finds, before starting to install packages.

#3 - Jan 11, 2018 05:53 PM - Andrea Dell'Amico

- % Done changed from 0 to 80

Script changed, now it's going to be provisioned on every dataminer and Rstudio server.

#4 - Jan 11, 2018 06:09 PM - Andrea Dell'Amico

- Status changed from In Progress to Closed

- % Done changed from 80 to 100

Done.
