Description

Yesterday @gianpaolo.coro@isti.cnr.it and I found out an issue in the Rprofile deployed in the RStudio users home in production. Can we update Rprofile with the last version modified by Gianapolo?

- *Status changed from New to Rejected*

- *% Done changed from 0 to 100*

As I explained to you yesterday, there's a cron job that updates the file every night. GP knows that.

And as you should know, and GP surely knows, if you do not explicitly quit your session, the Rprofile file is not loaded again.

Indeed it works. The sequence to reload the functions is Sweep + Quit + Start New Session
