- % Done changed from 0 to 100

I've added the SDMX Registry instance hosted on: "fusionregistry.d4science.org" with version "8.4.15" and the related sdmx-datasource-service to the "WECAFC-FIRMS" VRE.

@ciro.formisano@eng.it please, could you confirm if it is OK for you?

- Status changed from Feedback to Closed

According to the IS the registry has been added but no datasource is present. For the moment is OK but in the future an instance of the datasource should be deployed in every VRE in which SDMX exporting will be enabled
