D4Science Infrastructure - Task #11171

Please give access to ckan-solr-d4s.d4science.org from portal-production machines

Feb 13, 2018 11:31 AM - Costantino Perciante

Status:	Closed		**Start date:**	Feb 13, 2018
Priority:	Urgent		**Due date:**	
Assignee:	_InfraScience Systems Engineer		**% Done:**	100%
Category:	Application		**Estimated time:**	0.00 hour
Target version:	Data Catalogue			
Infrastructure:	Production			

Description

The ckan production solr index must be accessible from infra-gateway1.d4science.org and infra-gateway.d4science.org machines.

The client side builds an HttpSolrServer object, thus the port to be opened should be the standard 80 one.

History

#1 - Feb 13, 2018 11:32 AM - Costantino Perciante

- Subject changed from Please give access to ckan-d4s-solr from portal-production machines to Please give access to ckan-solr-d4s.d4science.org from portal-production machines

#2 - Feb 13, 2018 11:50 AM - Andrea Dell'Amico

- Status changed from New to In Progress

From what I see the solr index is already accessible from all our datacenter network via both http and https. But the http connection is being redirected to the https one.
If you cannot connect to solr via https I'll add exceptions for the portals.

#3 - Feb 13, 2018 11:53 AM - Massimiliano Assante

Please do add the exception as we cannot change the code now.

#4 - Feb 13, 2018 12:04 PM - Andrea Dell'Amico

- Status changed from In Progress to Feedback

- % Done changed from 0 to 90

I just added the exception. Beware that the redirection from http to https does not work anymore. That should be harmless because the CKAN services connect directly to https, but I'll try and check if there's a way to have both the exeption and the redirection.

#5 - Feb 13, 2018 02:14 PM - Massimiliano Assante

- Status changed from Feedback to Closed

- % Done changed from 90 to 100

The gateway can talk with the solr index now.
