- Blocks Task #11175: Revert the workaround on the ckan solr reverse proxy added

#2 - Feb 13, 2018 03:57 PM - Costantino Perciante

- Status changed from New to In Progress
- % Done changed from 0 to 100

Very likely the issue wasn't related to https. In dev I did use https and I don't think you had to perform any trick to make it work properly...

The problem isn't the direct connection to https. There could be a problem if you try to connect to http and your client does not understand the redirection to https.
