<b>Description</b> In order to restore the VO scopes previously removed, it's needed to add the VO scopes to the following CkanConnector instances: <ul style="list-style-type: none"><li>• ckan-sobigdata2.d4science.org (SoBigData scope)</li><li>• ckan-iotc.d4science.org (D4Research scope)</li><li>• ckan-d4s.d4science.org (D4Research scope)</li></ul>

The ckan-iotc.d4science.org instance has been dismissed some time ago

- % Done changed from 0 to 50

Added the following VO scopes to the ansible playbook:

- D4Research scope on ckan-d4s.d4science.org
- SoBigData scope on ckan-sobigdata2.d4science.org
- gCubeApps, D4Research and FARM scopes to ckan-d4s.d4science.org

I need to restart the containers above in order to make available these new settings.

i don't know why you need to add the VO scope but it is strange that to ckan-d4s that is global you are not adding SoBigData too.

Without VO scopes it's not possible to add dinamycally a VRE scope to a CkanConnector, I want to restore the same situation before [#10861](#) but of course I could add all the VO scope ( and keys) to ckan-d4s instance.

##### #6 - Feb 21, 2018 06:29 PM - Roberto Cirillo

Added SoBigData scope to ckan-sobigdata2.d4science.or

- % Done changed from 50 to 100

Added D4Research to ckan-d4s.d4science.org.

Please @francesco.mangiacrapa@isti.cnr.it could you check if are working properly?

I checked several instances of Catalogue in the above different VRE's and all seems work fine.

I'm going to close this ticket
