Target version:	UnSprintable			
Infrastructure:	Production			

Description

I need to empty my trash folder but I cannot do it programmatically. Although the direct call to the empty-trash service exits successfully, my trash folder is not empty afterwards.

I'm using this call:

```
http://workspace-repository.d4science.org:80/home-library-webapp/trash/EmptyTrash?gcube-token=<token>
```
