Status:	Closed	Start date:	Mar 07, 2018
Priority:	High	Due date:	
Assignee:	Roberto Cirillo	% Done:	100%
Category:	Application	Estimated time:	0.00 hour
Target version:	Upgrade document-store-lib-couchbase to 1.5.0		
Infrastructure:	Production		
Description We should replace the following libraries: accounting-lib document-store-lib document-store-lib-couchbase with the following ones: accounting-lib document-store-lib document-store-lib-accounting-service These artifacts will be taken from the following repository: gcube-staging-java7. The nodes involved in this upgrade are the following: registry.d4science.org wps-statistical.d4science.org geonetwork1-p-d4s.d4science.org geonetwork-aquacultureatlasgeneration.d4science.org tagme.d4science.org

wps-statistical.d4science.org has been correctly upgraded.
registry.d4science.org could me moved to [#11377](#) list, it's needed to test it before in dev instance hosted on node10-d-d4s.d4science.org.

I'm going to reopen this ticket because I've notice that the latest accounting libraries has some dependencies (jackson*) that are not needed in the previous distributions. Consequently, these dependencies should be added to all the previous distribution running with Java7.

#7 - Mar 15, 2018 11:13 AM - Roberto Cirillo

More precisely we need to add the following dependencies:

```
jackson-annotations-2.6.0.jar  jackson-core-2.6.0.jar  jackson-core-asl-1.9.13.jar  jackson-databind-2.6.0.jar  
jackson-mapper-asl-1.9.13.jar
```

to all the distributions lower than release 2.1.2-4.5.0-146408. In these cases the dependencies above should be compiled in Java7
