

D4Science Infrastructure - Task #11429

Upgrade GS development/pre-production instances

Mar 13, 2018 12:44 PM - Fabio Sinibaldi

Status:	Closed	Start date:	Mar 13, 2018
Priority:	Normal	Due date:	
Assignee:	Fabio Sinibaldi	% Done:	100%
Category:	Other	Estimated time:	0.00 hour
Target version:	SDI-nodes management		
Infrastructure:	Development, Pre-Production		
Description Upgrade development and production geoserver instance hosted on geoserver-dev.d4science-ii.research-infrastructures.eu. Migration procedure will be the same tested in #10957 . The new machine will be created as according to related subticket. Metadata will not be updated in the first phase, so a temporary DNS configuration will be set in a separate subticket until Metadata bulk update will be available.			
Subtasks:			
VM Creation # 11439: Preproduction GeoServer 2.10.5			Closed
Task # 11442: Copy data_dir to new instances			Closed
Task # 11446: Update Development Geoserver to 2.10.5			Closed
