Target version:	ISTI Open Portal Tasks		
Description			
Could you please configure the site thus to enact the tracking via Google Analytics?			
I just created the following Tracking ID UA-116458321-1			
For site tracking, you can simply use this code as the first item into the <HEAD> of every web page that you want to track. If you already have a Global Site Tag on your page, simply add the config line from the snippet below to your existing Global Site Tag.			
<!-- Global site tag (gtag.js) - Google Analytics -->			
window.dataLayer = window.dataLayer [];			
function gtag(){dataLayer.push(arguments);}			
gtag('js', new Date());			
gtag('config', 'UA-116458321-1');
