

D4Science Infrastructure - Task #11563

Please provide support for algorithms package on ShareLatex

Apr 04, 2018 11:36 AM - Luca Frosini

Status:	Closed	Start date:	Apr 04, 2018
Priority:	High	Due date:	
Assignee:	_InfraScience Systems Engineer	% Done:	100%
Category:	Application	Estimated time:	0.00 hour
Target version:	improve replicaset health		
Infrastructure:	Production		
Description I really need 'algorithms' package in ShareLatex. Looking to: https://tex.stackexchange.com/questions/28627/how-to-install-the-algorithms-package seem that installing 'texlive-science' ubuntu package is enough: https://packages.ubuntu.com/search?keywords=texlive-science Is it possible?

- Status changed from New to Closed

I just installed it.

If the need to install additional packages arises, please add them here: <https://support.d4science.org/issues/7963> so that I can add them to the new image, when I'll find the time do build it.
