Description

Running GRSF service on my machine I obtain the following exception:

```
org.postgresql.util.PSQLException: Connection to ckan-d-d4s.d4science.org:5432 refused. Check that
the hostname and port are correct and that the postmaster is accepting TCP/IP connections.
```

I think this is related to the possibility to communicate with ckan-d-d4s.d4science.org.

Can you please grant my machine to be able to connect with ckan-d-d4s.d4science.org
