Looking at the code I noticed the following comment:

```
// if the record isn't approved, then remove also archived
```

This means that the "Archived" Status should appear only if the record was already approved. @aureliano.gentile@fao.org is that what we expect? Is it right?

yes, it makes sense. I just checked this approved record http://data.d4science.org/ctlg/GRSF_Admin/c58637dd-3a63-3e54-b132-e07f9ed34454 and indeed "archived" is among the "status" options.
Thanks for having checked and the explanations. I guess the ticket can be closed.
