D4Science Infrastructure - Task #12247

Please upgrade collector-sa-d4s.smart-applications.area.pi.cnr.it

Jul 26, 2018 03:26 PM - Luca Frosini

Status:	Closed	**Start date:**	Jul 26, 2018
Priority:	Normal	**Due date:**	
Assignee:	Roberto Cirillo	**% Done:**	100%
Category:	Application	**Estimated time:**	0.00 hour
Target version:	infrastructure core services		
Infrastructure:	Production		

Description

Looking couchbase buckets I noticed two records in the old bucket accounting_service accounted for the host

http://collector-sa-d4s.smart-applications.area.pi.cnr.it:9000/

This means that such a machine still use an old accounting version and has document-store-lib-couchbase as persistence.

A smartgears upgrade is required

- Status changed from New to In Progress

This is the resource-manager service, it's not smartgears but gCore. gCore based services are still run with Java7. I'm going to upgrade manually the accounting libraries from repository: "gCube Staging Java7", released in 4.11.
