Can you indicate me all scopes where the SE have to be published

#2 - Oct 26, 2015 02:27 PM - Roberto Cirillo

I don't know how the accounting system works but I guess, the new SE should be added on every scope where the accounting system works.
If you have to set a different couchDB, in the SE, for pre prod and prod, you should to add a new SE for:

pre production environment: /d4science.research-infrastructures.eu/Ecosystem , /d4science.research-infrastructures.eu/Ecosystem/TryIt

production environment: other scopes under /d4science.research-infrastructures.eu

#4 - Oct 29, 2015 03:30 PM - Luca Frosini

Service Endpoints for accounting and for smart-executor have been created.
@lucio.lelii@isti.cnr.it must create the one for authorization if needed
