

D4Science Infrastructure - Task #12396

re-provision dev resource-registry and database

Sep 06, 2018 10:47 AM - Luca Frosini

Status:	Closed	Start date:	Sep 06, 2018
Priority:	Normal	Due date:	
Assignee:	Luca Frosini	% Done:	100%
Category:	Application	Estimated time:	0.00 hour
Target version:	Resource Provisioning		
Infrastructure:	Development		
Description			

History

#1 - Sep 06, 2018 10:48 AM - Luca Frosini

- Subject changed from re-provision dev resource-regisrty and database to re-provision dev resource-registry and database

#3 - Sep 06, 2018 12:50 PM - Luca Frosini

- Status changed from New to In Progress

#4 - Sep 06, 2018 02:59 PM - Luca Frosini

- % Done changed from 0 to 50

DB has been recreated

#5 - Sep 06, 2018 04:18 PM - Luca Frosini

Trying to reprovision dev resource-registry I obtain the following error:

```
./run.sh smartgears-node.yml -i inventory/hosts.dev -l resource_registry_dev -e "gcube_admin_token="
.....

TASK [disable nagios alerts for this host services] *****
failed: [resourceregistry1-d-d4s.d4science.org] (item=monitoring.research-infrastructures.eu) => {"item": "mon
itoring.research-infrastructures.eu", "msg": "SSH Error: data could not be sent to remote host \"monitoring.re
search-infrastructures.eu\". Make sure this host can be reached over ssh", "unreachable": true}
fatal: [resourceregistry1-d-d4s.d4science.org]: UNREACHABLE! => {"changed": false, "msg": "All items completed
", "results": [{"_ansible_ignore_errors": true, "_ansible_item_label": "monitoring.research-infrastructures.eu
", "_ansible_item_result": true, "item": "monitoring.research-infrastructures.eu", "msg": "SSH Error: data cou
ld not be sent to remote host \"monitoring.research-infrastructures.eu\". Make sure this host can be reached o
ver ssh", "unreachable": true}]}
    to retry, use: --limit @/home/lucafrosini/workspace/ANSIBLE/ansible-playbooks/d4science-ghn-cluster/smartg
ears-node.retry

PLAY RECAP *****
resourceregistry1-d-d4s.d4science.org : ok=1    changed=0    unreachable=1    failed=0
```

@andrea.dellamico@isti.cnr.it can you me?

#6 - Sep 06, 2018 04:23 PM - Andrea Dell'Amico

Add a ignore_errors: True to the nagios related tasks. Take the geoserver-smartgears.yml playbook as an example.

#7 - Sep 06, 2018 04:28 PM - Luca Frosini

Sorry, I don't understand how to do it because this playbook seems developed in a different way.

#8 - Sep 06, 2018 04:30 PM - Luca Frosini

I mean there is no dedicated .yml file for resource-registry. \$Instead the generic smartgears-node.yml

#9 - Sep 06, 2018 04:31 PM - Luca Frosini

Moreover, it already has **ignore_errors: True**

#10 - Sep 06, 2018 06:22 PM - Luca Frosini

@andrea.dellamico@isti.cnr.it found that **ignore_errors: True** does not work if the host is unreachable (see <https://github.com/ansible/ansible/issues/18075>)

He made a temporary solution on ansible task that I already pushed on git repository.

#11 - Sep 06, 2018 06:27 PM - Luca Frosini
