Target version:	GRSF		
Description			
Fishing Pressure time series is missing in several records.			
Examples: http://data.d4science.org/ctlg/GRSF_Admin/a45df585-b8c0-3d33-99a6-36c07a02e918 http://data.d4science.org/ctlg/GRSF_Admin/d98eaf4d-0bed-3c23-88b8-902aaf14befa http://data.d4science.org/ctlg/GRSF_Admin/bdd0c670-27ba-3c34-bb03-2b4c44c1b32c			
Apparently the abundance time series have been all properly harvested, the issue seems to be restricted to the (non-FIRMS standard) Fishing Pressure time series.

Blocks StocksAndFisheriesKB - Bug #12906: Update "problematic" records in the...			Closed Nov 20, 2018

History

#1 - Nov 16, 2018 01:34 PM - Yannis Marketakis

Clarification:

The first record has two values for Abundance Level, and one for Fishing Pressure.

These values were harvested from: (a) the stock data from FIRMS, (b) the related observation from FIRMS

As regards the abundance level, it seems that one of the values has been harvested from the related observation, which is not true for fishing pressure.

#5 - Nov 22, 2018 10:54 AM - Yannis Marketakis

The missing time-series have been added into GRSF KB (aprox. 400 were missing).

As a proof of concept we have updated the aforementioned records (legacy and GRSF ones), however we will update all of them ([#12906](#)).
