

D4Science Infrastructure - Task #12794

Workspace - Download problem with some file extension

Oct 29, 2018 02:54 PM - Giancarlo Panichi

Status:	Closed	Start date:	Oct 29, 2018
Priority:	Normal	Due date:	
Assignee:	Lucio Lelii	% Done:	100%
Category:	Application	Estimated time:	0.00 hour
Target version:	Workspace - Issues		
Infrastructure:	Pre-Production		
Description The workspace has some error with some file extension. I have seen that when the .jar file and .R are downloaded the underscore character is added at the beginning and at the end of the file. _java-black.jar_ _main.R_ _Info.txt_.txt https://pre.d4science.org/group/pre/workspace

@g.panichi@isti.cnr.it are you referring to a file downloaded by public link? Is it correct?

If it can help, I've tried to create a public link of a jar file uploaded by me in the workspace: the link is created correctly and the file name downloaded is correct.

The public link used is the following: <https://data-d4science.org/shub/28b1f019-51a9-4783-80df-a13af24711c3>
