<b>Description</b> Currently, there are some records in the GRSF public VRE ( <a href="https://services.d4science.org/group/grsf/">https://services.d4science.org/group/grsf/</a> ). These are the records that we have replicated from the GRSF-Admin VRE before the BlueBRIDGE review.  I think that we should remove them all, so that we can start publishing there the approved records ( <a href="#">#12857</a> ) from the GRSF-Admin VRE. Do you confirm that @aureliano.gentile@fao.org ?

Yes, the GRSF VRE should be empty so to receive approved records from the GRSF Admin. (to note the inheriting of those malfunctions we have highlighted in our recent discussions, I hope there will be a way to solve once these will be fixed.)

- Tracker changed from Bug to Task

- Status changed from New to In Progress

@francesco.mangiacrapa@isti.cnr.it and @luca.frosini@isti.cnr.it could you please remove them all from the GRSF VRE ?

Yes, sure! I just created a dedicated ticket for that (see subtask: [#12861](#))
