| The approved records in GRSF VRE are missing information about the sources they are derived from (i.e. FIRMS, RAM, FishSource).    |                   |                        |              |
| It was agreed in <a href="#">#12861</a> to add this information as well. So we have to update the approved records with such info. |                   |                        |              |
