

D4Science Infrastructure - Task #13134

infrastructure-monitor: I'm not able to create a ServiceEndpoint

Jan 14, 2019 11:15 AM - Roberto Cirillo

Status:	Closed	Start date:	Jan 14, 2019
Priority:	High	Due date:	
Assignee:	Massimiliano Assante	% Done:	100%
Category:	Other	Estimated time:	0.00 hour
Target version:	PreProd Infrastructure		
Infrastructure:	Pre-Production		
Description In order to test the correct encryption/decryption with the new preproduction key, I need to create a new ServiceEndpoint resource. Unfortunately, the portlet shows only a white window when I try to create a new ServiceEndpoint resource. Instead the GenericResource widget creation is showed properly. I've tried on several scopes (in different infrastructures) with the same result. No log found on the portal. Please, could you check?			

History

#2 - Jan 14, 2019 03:32 PM - Roberto Cirillo

- Status changed from New to Closed
- % Done changed from 0 to 100

Now it works properly.
