Management Body/Authority(ies) Code: authority:NAT:-, System: unk, Name: European Commission			
Record URL: http://data.d4science.org/ctlg/GRSF_Admin/aaa682c8-634a-39e4-a721-8fb9a24e0842			
The mapping rule file on management entities https://goo.gl/fkBZTh does provide EU and EC codes. So why here the EC code is missing?			
Please note that the source record http://data.d4science.org/ctlg/GRSF_Admin/2f00860f-e777-3f24-8407-413547d5d7b7 is reporting the code properly

Fixed.

As a side effect, there are 484 GRSF fishery records that need to be updated.
I've just triggered an update for them.

Before moving on with the update
@aureliano.gentile@fao.org can you confirm that the semantic identifier should be updated accordingly?

I double checked and I think we should make it easier and aligned with any other international authorities.
Hence EC could handled as follows:

authority:INT:EC

Management Body/Authority(ies) Code: authority:INT:EC, System: grsf-org, Name: European Commission

the semantic identifier will be:

asfis:HER+fao:27.1;fao:27.14.A;fao:27.2;fao:27.5;fao:27.6.A+authority:INT:NEAFC;authority:INT:EC+iso3:DNK+isscfg:01.1

The corresponding GRSF fishery records (484 in number) have been updated in the GRSF KB.

As a proof-of-concept I have updated the record http://data.d4science.org/ctlg/GRSF_Admin/aaa682c8-634a-39e4-a721-8fb9a24e0842

I will proceed with the update of the rest of the records (the rest 483 with the issue) as soon as we resolve other related issues (i.e. [#16395](#), [#12421](#))
