

D4Science Infrastructure - Support #13161

increase the number of backups kept for the WS database in production

Jan 16, 2019 07:40 PM - Lucio Lelii

Status:	Closed	Start date:	Jan 16, 2019
Priority:	High	Due date:	
Assignee:	_InfraScience Systems Engineer	% Done:	100%
Category:	Other	Estimated time:	0.00 hour
Infrastructure:	Pre-Production, Production		
Description			
now we keep only 10 backups of the WS database, we need to increase it in case we realize that there is an issue 10 days after it is happened (eg. in case of summer holidays)			

History

#1 - Jan 17, 2019 01:11 PM - Tommaso Piccioli

- Status changed from New to Closed

This was the retention policy for the DB dump at day T:

at least daily db dump of days T-1 till T-N with N in the range 9-15

4 daily db dump older than day T-N-2

4 daily db dump older than day T-N-9

With a total of 9-15 daily + 8 older DB dumps

Anyway I have increased the number of retained days just now,
we will have the last 12 to 18 daily db dumps + 12 db dumps from older weeks
