

D4Science Infrastructure - Task #13293

DataMiner - The installation scripts must check if already_installed_algorithms.txt is an empty file

Feb 06, 2019 02:47 PM - Giancarlo Panichi

Status:	Closed	Start date:	Feb 06, 2019
Priority:	Normal	Due date:	Feb 06, 2019
Assignee:	Andrea Dell'Amico	% Done:	100%
Category:	Application	Estimated time:	0.00 hour
Target version:	DataMiner - Provisioning		
Infrastructure:	Development, Pre-Production, Production		
Description			
The installation scripts must check the file containing the list of already installed algorithms:			
wps_algorithms_install_log/already_installed_algorithms.txt			
So whether the file does not exist or the file is empty the algorithms must be installed.			

History

#1 - Feb 06, 2019 03:32 PM - Andrea Dell'Amico

- Status changed from New to In Progress
- % Done changed from 0 to 70

The new condition I'm adding when. Now, when the svn update command reports that nothing changed, the installer is still run in the following cases:

- No already_installed_files.txt is present (this condition was already there)
- The already_installed_files.txt is present but empty
- The already_installed_files.txt is present but lists less algorithms than the ones present in the algorithms file from subversion

#2 - Feb 06, 2019 03:34 PM - Andrea Dell'Amico

I just tested the script on dataminer1-p-d4s.d4science.org and it works. The log text that's written to syslog has been changed so that it's possible to check what condition was verified.

#3 - Feb 06, 2019 03:42 PM - Andrea Dell'Amico

- Status changed from In Progress to Feedback
- % Done changed from 70 to 100

The new script has been deployed everywhere.

#4 - Feb 06, 2019 04:10 PM - Giancarlo Panichi

- Due date set to Feb 06, 2019
- Status changed from Feedback to Closed

@andrea.dellamico@isti.cnr.it , the script works correctly, now in the presence of an empty file it installs the algorithms in the DataMiner server.
