

D4Science Infrastructure - Task #13346

common-authorization library: release the new 2.1.4 version to gCube Staging repository

Feb 18, 2019 10:40 AM - Roberto Cirillo

Status:	Closed	Start date:	Feb 18, 2019
Priority:	High	Due date:	
Assignee:	Lucio Lelii	% Done:	100%
Category:	Application	Estimated time:	0.00 hour
Target version:	PreProd Infrastructure		
Infrastructure:	Pre-Production, Production		
Description <p>I see that you have deployed the new common-authorization version just in gcube-snapshot repository but you haven't upgrade the version. It's 2.1.3-SNAPSHOT but the 2.1.3 version was already released in staging without the preproduction map. Please could you upgrade the version?</p> <p>In addition, I need to install the gCube-Staging component in the new preproduction infrastructure hence I need a new staging version. Could you release it in gCube 4.13.1, please?</p>
