D4Science Infrastructure - Task #141

We need a newer tomcat package for the Ubuntu precise VMs

May 23, 2015 02:15 PM - Andrea Dell'Amico

Status:	Closed		**Start date:**	May 23, 2015
Priority:	Normal		**Due date:**	
Assignee:	Andrea Dell'Amico		**% Done:**	100%
Category:	System Application		**Estimated time:**	0.00 hour
Target version:	System Configuration			
Infrastructure:	Production			

Description

The smartgears software doesn't work with tomcat 7.0.26, the version packaged for Ubuntu precise.

The smartgears nodes cannot be installed as Ubuntu trusty because we also need an old version of R, the one distributed with Ubuntu precise. See task #131

History

#1 - May 23, 2015 02:16 PM - Andrea Dell'Amico

- Status changed from In Progress to Resolved

- % Done changed from 0 to 90

We now have a package for tomcat 7.0.55. I chose this one because is the last ubuntu/debian build that does not depends on java8 bits.
