- Subject changed from Please deactivate "Unread Issues plugin" to Please remove "Unread Issues plugin" and "Recurring Tasks (Issues)"

#2 - Nov 19, 2015 01:25 PM - Andrea Dell'Amico

- Status changed from New to In Progress

- % Done changed from 0 to 60

I removed the 'unread issues plugin', while I updated the 'recurring tasks' one because, from the readme, it seems that it can now behave like you need to.

Let me know if it's ok or if we want it removed.

Yes, read The comment <https://support.d4science.org/issues/1416#note-3>; it's a newer version, from the changelog it now could behave the way you want. If not, I'm going to remove it.

Perfect, I'm going to test it.

today morning I correctly received the email and the behaviour was the one I expected. The first ticket was cloned. See #1500 #1509
I'm waiting the next run tomorrow to see it again. then I planned to delete the first ticket #1500 to see if the recurrence is always referred from the first ticket or is inherited every time (I think and I hope for the second one)
