Description

The account fabriani@eng.it (not paolo.fabriani@eng.it) should be on the OLD LDAP, as we have a duplicate for this user in Redmine and on all the D4Science Gateways the email is paolo.fabriani@eng.it

please remove fabriani@eng.it from the Old Ldap

#2 - Nov 23, 2015 05:03 PM - Massimiliano Assante

I guess the same applies for laskarisn@gmail.com   (Nikolas   Laskaris), as I haven't found him in the D4Science gateways too, can you remove that too?

It's the other way round, for both of them.
paolo.fabriani@eng.it is an user from the old ldap server, and Nikolas Laskaris is registered on the old ldap with the laskarisn@di.uoa.gr email address.

Paolo is also member of various groups on the old ldap.

Okay, If understand correctly:

On the D4Science ldap server (the new LDAP) there are both paolo.fab**i@eng.it **and fab***@eng.it.

Please remove fab***@eng.it, if by chance fab***@eng.it is on the old LDAP Server, please remove that too.

On the D4Science ldap server (the new LDAP) there are both lask***@gmail.com and las***@di.uoa.gr

Please remove lask***@gmail.com, if by chance lask***@gmail.com is on the old LDAP Server, please remove that too.
