

StocksAndFisheriesKB - Bug #16498

Update Management Entities Information

Apr 10, 2019 10:23 AM - Yannis Marketakis

Status:	In Progress	Start date:	Apr 10, 2019
Priority:	Normal	Due date:	Apr 12, 2019
Assignee:	Yannis Marketakis	% Done:	10%
Category:		Estimated time:	0.00 hour
Target version:	GRSF		
Description There are various information missing (e.g. acronym, country) from the management entities for several fisheries records. Now FishSource has exposed more recent information. As a result: <ul style="list-style-type: none">• we will update the GRSF KB with the missing information about the management entities (coming from FishSource)• we will update the corresponding records in GRSF VREs (both legacy and GRSF records)			
Related issues: Related to StocksAndFisheriesKB - Bug #13250: Honduran management organizatio... Closed Apr 11, 2064			

History

#1 - Apr 10, 2019 11:25 AM - Yannis Marketakis

- File *Fishery Records with updated management entities.xlsx* added

The attached list contains the fishery records to be updated w.r.t. the updates in their management entities (i.e. addition of code or country).

I'll update the GRSF KB w.r.t. this list and then update the records in GRSF admin.
After that, I'll proceed with the corresponding GRSF fishery records.

#2 - Apr 11, 2019 10:45 AM - Yannis Marketakis

- Status changed from *In Progress* to *Feedback*

- % Done changed from 0 to 100

The management entities have been updated w.r.t. the latest information from FishSource.

In addition, we have updated the corresponding (legacy) fishery records and the GRSF Fishery records accordingly (including updating their semantic identifiers properly).

#3 - Apr 11, 2019 10:50 AM - Yannis Marketakis

- File *issue_16948_updated_Records.xlsx* added

If you wish to check the updated records, attached you will find the list of catalog URLs for the records that have been updated.

#10 - Apr 19, 2019 02:19 PM - Yannis Marketakis

- Status changed from In Progress to Feedback

I found 39 records that (for a strange reason) haven't been updated. Now they're OK.

The following records are still missing the management authority (we are missing their country codes)

- http://data.d4science.org/ctlg/GRSF_Admin/0c2a1764-ff70-334d-b227-1613d6532776
- http://data.d4science.org/ctlg/GRSF_Admin/70668ee0-29e5-3e19-a098-fe311dde518e
- http://data.d4science.org/ctlg/GRSF_Admin/fb3d3dad-44c7-3e78-a8c8-f19aca1233d9

#11 - Apr 24, 2019 11:54 AM - Marina Mendes

thanks a lot, Yannis! I'll check the listed records to try to understand why the country codes are missing in FS.

#12 - May 08, 2019 10:43 AM - Susana Segurado

- Assignee changed from Yannis Marketakis to Merul Patel

We've found the issue with the remaining records is a case-sensitivity mismatch on our end, resulting in the country not being sent. Assigning to Merul.

#13 - May 08, 2019 04:08 PM - Merul Patel

- Assignee changed from Merul Patel to Yannis Marketakis

Curiously only the Organizations for the Falklands were affected. I've corrected the data on FS so the API will now return the country information correctly. I've also queued up a development task to ensure we can get better quality control on this at our end.

Fishsource ticket: <https://sharespace.sustainablefish.org/issues/15559>

#14 - May 10, 2019 10:26 AM - Yannis Marketakis

- Assignee changed from Yannis Marketakis to Merul Patel

Thanks for the update Merul. I've updated the corresponding records in GRSF Admin VRE. There are still some issues (I'm pasting them here if you wish to investigate them).

- <https://www.fishsource.org/api/bluebridge/v4/fisheries/5531> (we are missing the country of the management authority)
- <https://www.fishsource.org/api/bluebridge/v4/fisheries/4370> (we are missing the acronym of the management authority)
- <https://www.fishsource.org/api/bluebridge/v4/fisheries/2803> (cannot find the fishery record)
- <https://www.fishsource.org/api/bluebridge/v4/fisheries/4291> (cannot find the fishery record)
- <https://www.fishsource.org/api/bluebridge/v4/fisheries/5515> (cannot find the fishery record)
- <https://www.fishsource.org/api/bluebridge/v4/fisheries/4290> (cannot find the fishery record)

#15 - May 23, 2019 04:10 PM - Susana Segurado

<https://www.fishsource.org/api/bluebridge/v4/fisheries/5531> (we are missing the country of the management authority)

This is an international organisation, the Convention on the Conservation and Management of Pollock Resources in the Central Bering Sea (CCBSP): do we need to add it to a list of international organisations or how do we get it to be recognised as INT?

<https://www.fishsource.org/api/bluebridge/v4/fisheries/4370> (we are missing the acronym of the management authority)
Corrected

<https://www.fishsource.org/api/bluebridge/v4/fisheries/2803> (cannot find the fishery record)
<https://www.fishsource.org/api/bluebridge/v4/fisheries/4291> (cannot find the fishery record)
<https://www.fishsource.org/api/bluebridge/v4/fisheries/5515> (cannot find the fishery record)
<https://www.fishsource.org/api/bluebridge/v4/fisheries/4290> (cannot find the fishery record)
Merul, would you be able to look into these please?

#16 - May 24, 2019 09:40 AM - Yannis Marketakis

- Status changed from Feedback to In Progress

- Assignee changed from Merul Patel to Yannis Marketakis

Thanks @susana.segurado@sustainablefish.org for the update.

I will update the records containing <https://www.fishsource.org/api/bluebridge/v4/fisheries/5531> and <https://www.fishsource.org/api/bluebridge/v4/fisheries/4370> accordingly.

As soon as @merul.patel@sustainablefish.org has an update for the rest of them, I'll proceed with those as well.

#17 - May 24, 2019 11:01 AM - Yannis Marketakis

In addition, I noticed that the acronyms for the organizations with ID 5073 have changed from DPIRD to WAMF.

This affects several records in GRSF (for example http://data.d4science.org/ctlq/GRSF_Admin/d65ab940-db6f-3389-a4e5-bd902128c8d7). Can you confirm if this update is correct?

#18 - May 24, 2019 02:36 PM - Susana Segurado

Thanks for spotting that Yannis. I have amended the organisation details and all should be correct now.

#19 - May 24, 2019 04:37 PM - Yannis Marketakis

Thanks Susana.

I've updated the records accordingly.

#20 - May 24, 2019 04:37 PM - Yannis Marketakis

#21 - May 04, 2020 06:32 PM - Merul Patel

- Assignee changed from Merul Patel to Yannis Marketakis

These fishery records no longer exist - and have been deleted since the original harvest:

1. <https://www.fishsource.org/api/bluebridge/v4/fisheries/2803> (cannot find the fishery record)
2. <https://www.fishsource.org/api/bluebridge/v4/fisheries/4291> (cannot find the fishery record)

- 3. <https://www.fishsource.org/api/bluebridge/v4/fisheries/5515> (cannot find the fishery record)
- 4. <https://www.fishsource.org/api/bluebridge/v4/fisheries/4290> (cannot find the fishery record)

Please note, we're in the middle of making an additional modification to the API when returning management entity information, which will allow one or more ISO3166-2 subdivisions to be returned instead of just single values. Examples of this include interstate agencies like Gulf States Marine Fisheries Commission (Texas, Louisiana, Mississippi, Alabama, Florida), but this shouldn't affect our work significantly. **Please just ensure your harvest code notes the change in a value from String to Array.**

Note for MP and SS: <https://sharespace.sustainablefish.org/issues/15554>
