Approve and Archive RAM no longer monitored stocks

Apr 19, 2019 03:31 PM - Aureliano Gentile

Status:	Closed	Start date:	Apr 19, 2019
Priority:	Normal	Due date:	
Assignee:	Yannis Marketakis	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	GRSF		
<b>Description</b> Please approve and archive the attached list of ** 34** stocks from RAM which are no longer monitored (in FIRMS is the notion of "monitoring evolution"). <ul style="list-style-type: none"><li>• If possible, it would be good to add in the annotation what is in column B</li><li>• Please note that I did already the first two records for testing purposes, both of the application and to check the content.</li></ul> (interesting: RAM record ANCHMEDGSA17 now ANCHMEDGSA17-18 was merged with FIRMS record and in fact also in FIRMS DB this stock is flagged as no longer monitored)			

History

With many thanks.

I see that in the "GRSF" VRE it is not possible to access the Archived records. In the [requirements](#), this is not fully clarified if to have it or not. I guess we can keep as it is for the time being and in case of feedback we may push such archived records also in the public VRE.

The records have been published with the proper status in GRSF. I guess you mean that the panel on the right indicating the statuses of the records is missing (as in GRSF admin). If, so then we could discuss with CNR colleagues to see if they can include that in GRSF VRE as well.
