ISTI Open Access - Support #16774

Fix/improve the "no available" ... aka enhance the records' abstract

May 24, 2019 12:40 PM - Leonardo Candela

Description

There is a significant amount of records containing a funny "no available" string in the abstract field. E.g. see

https://openportal.isti.cnr.it/results?qv=no+available

These **values are in the native metadata**, thus the right approach should be to **fix the metadata in People** by putting a string like "An abstract is not available". I know this is a time consuming and boring task :)

Another option (not excluding the previous) should be to put in place some "correctors" in the collection - indexing pipeline. @michele.artini@isti.cnr.it is it possible to extract a set of "problematic" abstracts and some statistics? This will help in understanding how much problematic is the quality of current abstract values.

History

#1 - May 24, 2019 12:59 PM - Anonymous

The total amount of records with different forms of "no available" is 289. We'll fix it.
