StocksAndFisheriesKB - Bug #16923

Cannot publish records in GRSF Admin VRE (unauthorized)

Jun 12, 2019 03:33 PM - Yannis Marketakis

Status:	Closed		**Start date:**	Jun 12, 2019
Priority:	Normal		**Due date:**	
Assignee:	Francesco Mangiacrapa		**% Done:**	100%
Category:			**Estimated time:**	0.00 hour
Target version:	GRSF			

Description

I tried to publish a record in GRSF Admin today and encountered a not authorized message. The detailed message is shown below.

```
java.lang.Exception: Method failed: HTTP/1.1 500 Internal Server Error; Response body: {"id":null,
"knowledge_base_id":null,"product_url":null,"error":"You are not authorized to create a product. P
lease check you have the Catalogue-Administrator role!"}

I just tried. Still the same issue.

#4 - Jun 13, 2019 02:48 PM - Francesco Mangiacrapa

Hi @marketak@ics.forth.gr,

the issue could be caused by a patch recently released to the CKAN APIs.
I just disabled such patch and now the publishing should work again (nothing else has been changed).
Could you kindly try again? Sorry for the inconvenience.

- Status changed from In Progress to Closed

- % Done changed from 0 to 100

Thanks for the update Francesco. It's fine now. I published a record properly.

Hi Fransesco,

I just tried to publish some records in GRSF VRE, however I'm facing again the same issue.
Could you please check this out?

```

#7 - Jul 26, 2019 01:05 PM - Francesco Mangiacrapa

Hi Yannis,

Could you please retry now?

We have just updated the *grsf-publishe-ws* service instance (see at https://support.d4science.org/issues/16951#note-7) on production and it should fix (I hope definitively) the issue.
Let me know...

#8 - Jul 26, 2019 01:14 PM - Yannis Marketakis

Thanks Fransesco.
It works without any issues.
