

D4Science Infrastructure - Task #1801

Provide 3 new VMs for hosting CouchDB in pre production environment

Dec 11, 2015 04:25 PM - Roberto Cirillo

Status:	Rejected	Start date:	Dec 11, 2015
Priority:	Normal	Due date:	
Assignee:	Paolo Fabriani	% Done:	100%
Category:	System Application	Estimated time:	0.00 hour
Target version:	PreProd Infrastructure		
Infrastructure:	Pre-Production		
Description These new VMs should host couchDB for accounting system. Following the HW requirements: 2 GB ram, 2 vcpu, 30 GB disk space. When the new VMs are ready we could install couch via ansible			

History

#2 - Dec 11, 2015 04:45 PM - Paolo Fabriani

As anticipated during the November meeting in Athens, Eng is not able to provide new VMs before next January, due to a physical migration of the infrastructure to a different site.

#3 - Dec 11, 2015 04:46 PM - Luca Frosini

- Subject changed from Provide 2 new VMs for hosting CouchDB in pre production environment to Provide 3 new VMs for hosting CouchDB in pre production environment

I modified the title from "...2 new VMs..." to "...3 new VMs..." because we need 2 machine for couchdb per se and another one for haproxy installation (which in our architecture is the entry point to store and query couchdb)

#4 - Dec 11, 2015 04:51 PM - Roberto Cirillo

- Tracker changed from Support to Task

#5 - Jul 26, 2018 03:07 PM - Pasquale Pagano

- Status changed from New to In Progress

#6 - Jul 26, 2018 03:08 PM - Pasquale Pagano

- Status changed from In Progress to Rejected
