

D4Science Infrastructure - Task #1984

Reconsider the Experiencing page on the D4Science website

Jan 14, 2016 07:15 PM - Leonardo Candela

Status:	Rejected	Start date:	Jan 14, 2016
Priority:	Normal	Due date:	
Assignee:	Pasquale Pagano	% Done:	100%
Category:	Other	Estimated time:	0.00 hour
Target version:	UnSprintable		
Infrastructure:	Production		
Description			
<p>Website page https://www.d4science.org/experiencing lists 4 VREs only (the public access ones). This message risks to be misleading. The goal of this page is expected to be: <i>D4Science offers free access to a number of Virtual Research Environments making available state-of-the-art services, tools, and quality working environments.</i></p> <p>A different page is dedicated to describe the supported project https://www.d4science.org/empowering each operating one or more VREs.</p> <p>A possible solution to overcome the potentially misleading message highlighted above might be to change the goal of the page as follows:</p> <p><i>D4Science operates a number of Virtual Research Environments making available state-of-the-art services, tools, and quality working environments. Some of these VREs results from the support to projects and initiatives that defines the access policies</i></p> <p>The page will contain the entire list of VREs that are hosted by the D4Science infrastructure (no matter the gateway and the project). Each VRE entry in this page shall be accompanied with (at least):</p> <ul style="list-style-type: none">• VRE access policy; <p>To be decided if we have to include the project(s) promoting the VRE.</p>
