

## ISTI Open Access - Bug #20240

### Reconsider search by author

Dec 03, 2020 09:25 AM - Leonardo Candela

<b>Status:</b>	Rejected	<b>Start date:</b>	Dec 03, 2020
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	Michele Artini	<b>% Done:</b>	100%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	ISTI Open Portal Issues		
<b>Description</b> Right now the search by author is performed by <a href="https://openportal.isti.cnr.it/results?cnrauthb&amp;qv=NameSurname">https://openportal.isti.cnr.it/results?cnrauthb&amp;qv=NameSurname</a> However, it seems this query is not using the author fields only. In fact the following query <a href="https://openportal.isti.cnr.it/results?cnrauthb&amp;qv=Riccardo%20Cini">https://openportal.isti.cnr.it/results?cnrauthb&amp;qv=Riccardo%20Cini</a> returns a record where the author is not present.			

### History

#### #1 - Dec 03, 2020 09:43 AM - Michele Artini

- Status changed from New to Rejected

You are using an invalid url, the right url is

<https://openportal.isti.cnr.it/results?qf=cnrauthb&qv=NameSurname>

for example:

<https://openportal.isti.cnr.it/results?qf=cnrauthb&qv=Riccardo%20Cini>

In your URL you does not specify the query field (qf=), so you were performing a search on all fields.

Also the field name was wrong (**cnrauthb** instead of **cnrauth**).

#### #2 - Dec 03, 2020 10:02 AM - Leonardo Candela

the URL come from the ISTI Website ... we contacted the managers to fix the issue.
