Description			
Dear Yannis			
Upon further review, we have found 86 pending RAM records that can now be APPROVED. Please find them in the attached file, within the ACTION column (column I), highlighted in yellow, with the action "APPROVE". For now, please ignore the other records and actions in red text as these still require further clarification.			
Many thanks, Bracken

Thanks @marketak@ics.forth.gr I cross checked the above figures with the competency queries (List GRSF Stock records with their original IDs) and seems consistent. ;-)

Following exchanges with RAM colleagues, in the coming days we envisage to have more approvals/merges for RAM records as they are ready for the inclusion of UUIDs in their source db.
