Description

Hello,
For some reason, the VME-DB report manager is no longer available in <https://dev.d4science.org/group/devvre/report-generation>
Do you know why? and if it could enabled again?

Thanks in advance for your answer

Dear Emmanuel,
the Reports Manager/VME dev was disabled last month due to the bug [#1828](https://support.d4science.org/issues/1828) (<https://support.d4science.org/issues/1828>)

However, now the fix is in production and we can re enable the Reports Manager/VME dev. To do so, I would need the endpoint url of the DEV rsg-ws, could you or someone at FAO please provide it to me?
