

D4Science Infrastructure - Task #206

Task # 183 (Closed): tomcat running as root user under port 80

Automate the installation of wps.statistical.d4science.org

May 30, 2015 08:31 PM - Andrea Dell'Amico

Status:	Closed	Start date:	May 30, 2015
Priority:	Normal	Due date:	
Assignee:	Andrea Dell'Amico	% Done:	100%
Category:	System Application	Estimated time:	0.00 hour
Target version:	UnSprintable		
Infrastructure:	Production		
Description 1. Web server frontend 2. Tomcat under an unprivileged user 3. R needs to be installed with the same version packages as it is now The distribution needs to be Ubuntu 12.04 to satisfy the R requirements.			

History

#1 - Jun 04, 2015 05:21 PM - Andrea Dell'Amico

- Start date set to May 30, 2015

due to changes in a related task

#2 - Jun 04, 2015 05:23 PM - Andrea Dell'Amico

The news is that R is not needed.

R is actually present maybe because the machine is a clone of one of the smartgears worker nodes.

#3 - Jan 19, 2016 03:03 PM - Gianpaolo Coro

- Status changed from New to Closed

- % Done changed from 0 to 100

This ticket does not have sense anymore, since wps.statistical will be soon substituted by DataMiner.
I have sent an alert to the FishBase team to move to DataMiner before the end of February 2016.
