Missing Scientific Advice Resource in some GRSF Records

Description <p>The group scientific advice in GRSF Admin VRE (https://i-marine.d4science.org/group/grsf_admin/data-catalogue), currently reports 577 records. However, the corresponding competency query reports 651.</p> <p>I tried to find those 74 records that do not contribute to the overall count for the scientific advice group (using gCat API #22298). The list of UUIDs for these 74 records is attached.</p> <p>I noticed that all of them contain the scientific advice under the Additional Info section, however, it is not added under Data and Resources section. I suspect that this is the reason that these records are not added to this group. I tried to update those records, but the issue persists.</p>

Hi @marketak@ics.forth.gr,

thanks for your analysis.

As usual, could you kindly provide us with one, two JSON sources of those (74) records?
And a source JSON of the 577 records that is correctly managed and added to **Scientific Advice** group, e.g. for this one https://data.d4science.org/ctlg/GRSF_Admin/fb9c253b-2916-38c5-bf3a-857ec18cf1a5

Thanks.
