Description

After removing records in GRSF PRE VRE (https://blue-cloud.d4science.org/group/grsf_pre/data-catalogue) the catalog shows a Server Error message
As all the records have been removed it should report 0 records. Could you please check?

The screenshot shows the 'GRSF PRE Records Management' interface. At the top, there is a navigation bar with 'GRSF PRE', 'Members', and 'GRSF PRE Records Management'. Below this is a secondary navigation bar with links: 'Home', 'Organisations', 'Groups', 'Records', 'Types', 'Statistics', 'My Organisations', and 'My Groups'. A 'Publish Item' link is also visible. The main content area displays a large 'Server Error' message: 'An internal server error occurred'.
