@aureliano.gentile@fao.org

do you confirm that database\_sources is not present anymore?

I think such a field is now source\_of\_information. I found such a field in some json (please find the attached file) coming from stocks from ram. I don't find the field in the available records in the catalogue. The record of the JSON example is not present (I think it was merged).

**#9 - Apr 13, 2022 05:57 PM - Luca Frosini**

@aureliano.gentile@fao.org do you confirm that "GRSF UUID" must be visualised in "Additional Info" section?

**#10 - Apr 13, 2022 06:12 PM - Aureliano Gentile**

- File recordinfo.png added

Yes, thanks, I confirm as it is already the case.

If possible I would relabel "Record Info" or equivalent in place of Additional Info. See also attached screenshot. But if too complex, please feel free to ignore.

**#11 - Apr 22, 2022 11:19 AM - Luca Frosini**

- % Done changed from 20 to 70

Also, the following sections have been aligned.

[https://wiki.gcube-system.org/gcube/GCube\\_Data\\_Catalogue\\_for\\_GRSF#Stock\\_Metadata](https://wiki.gcube-system.org/gcube/GCube_Data_Catalogue_for_GRSF#Stock_Metadata)

I'm going to fix the IS configuration according to the revision.

Please open a ticket to @francesco.mangiacrapa@isti.cnr.it for these requests. It should be a matter of the CKAN template
