The labels have been updated according to the requirements described in this ticket. They are updated in the GRSF\_PRE Catalogue (at [https://i-marine.d4science.org/group/grsf\\_pre/data-catalogue](https://i-marine.d4science.org/group/grsf_pre/data-catalogue)).

Waiting for @aureliano.gentile@fao.org feedback. If OK, I will apply the updates to GRSF (at <https://i-marine.d4science.org/group/grsf/data-catalogue>) and GRSF\_ADMIN (at [https://i-marine.d4science.org/group/grsf\\_admin/grsf\\_admin](https://i-marine.d4science.org/group/grsf_admin/grsf_admin)).

Thanks Francesco,

I checked a few stocks and fisheries records and labels **Record Info** and **Type** are fine, please proceed in GRSF Admin and GRSF public VREs. (With the understanding that this ticket is only for those two CKan labels while we are waiting for the rest of fixes from Luca)

Hi @aureliano.gentile@fao.org,

The GRSF Admin and GRSF public VREs have been updated with the enhancements (CKAN labels) required.

(With the understanding that this ticket is only for those two CKan labels while we are waiting for the rest of fixes from Luca)

Yes, this ticket is only for those CKAN labels.

@luca.frosini@isti.cnr.it will proceed and synchronize the tests (and future release) of the grsf-publisher-ws fixes/enhancements.
